

# IES-3424DSFP-2P

# 24 10/100TX + 4 DualSpeed SFP Industrial L2<sup>+</sup> Switch

# w/ Enhanced G.8032 Ring

- High-density 10/100TX L2+ managed
- Support dual power redundancy AC&DC

- Enhanced G.8032 ring protection < 20ms for single ring. Supports auto mode, enhanced mode, train mode and basic mode; Enhanced G.8032 ring covers multicast packets; MSTP 16MSTI /RSTP; support MRP ring
- Support LACP link aggregation, IGMP v3/router port, MLD snooping, DHCP server & DHCP Option82; DHCP Snooping; Port based DHCP distribution, Mac based DHCP server, QoS by VLAN, SSH v2/SSL, HTTPS, INGRESS/EGRESS ACL L2/L3, TACACS+\*\*, QinQ
- Protocol based VLAN; IPv4 Subnet based VLAN
- Support relay contact DIDO
- Miss-wiring avoidance & Node failure protection
- User friendly UI, including auto topology drawing and DDM threshold monitoring with dB values\*\*\*, Complete CLI supported
- USB slot for edited restoration and auto backup

# **OVERVIEW**

Lantech IES-3424DSFP-2P is a high performance L2+ (Gigabit uplink) switch with 24 10/100/1000T + 4 Dual Speed SFP. It delivers ITU G.8032 enhanced ring recovery less than 20ms in single ring while also supports train ring, enhanced mode, multiple VLAN model. The comprehensive QoS, QoS by VLAN, advanced security including INGRESS/EGRESS ACL L2/L3, TACACS+\*\*, SSH v2/SSL, Mac based DHCP server, DHCP Option 82, DHCP server, IGMPv1/v2/v3/router port, QinQ are supported and also required in large network.

# Miss-wiring avoidance, Loop protection, Node failure

The IES-3424DSFP-2P also embedded several features for stronger and reliable network protection in an easy and intuitive way. When the pre-set ring configuration failed or looped by miss-wiring, Lantech IES-3424DSFP-2P is able to alert with the LED indicator and disable ring automatically. Node failure protection ensures the switches in a ring to survive after power breakout is back. The status can be shown in NMS when each switch is back. This feature prevents the broken ring and keep ring alive without any re-configuration needed. Loop protection is also available to prevent the generation of broadcast storm when a dumb switch is inserted in a closed loop connection.

## Enhanced G.8032 ring, 16 MSTI MSTP; MRP ring

Lantech IES-3424DSFP-2P features enhanced G.8032 ring which can be self-healed in less than 20ms for single ring topology protection covering Multicast packets. It also supports various ring topologies that covers double ring, multi-chain (under enhanced ring), train ring, basic ring, multiple-VLAN ring and auto-ring by easy setup than others. The innovative auto-Ring configurator (auto mode) can calculate owner and neighbor in one step. It supports MSTP that allows RSTP over VLAN for redundant links with 16 MSTI.

MRP (Media Redundancy Protocol) can be supported for industrial automation networks.

## DHCP option 82 & Port based, Mac based DHCP, Option66, DHCP Snooping, IPv6 DHCP server

DHCP server can assign dedicated IP address by MAC or by port (Port based for single switch), it also can assign IP address by port for multiple switches with single DHCP option82 server. DHCP Snooping is supported. For the ending device which need to download file from TETP server DHCP Option66 server can offer IP address of TFTP server to DHCP

client. Basic IPv6 DHCP service can be supported.

### QoS by VLAN for legacy devices

QoS by VLAN can allow switch to tag QoS by VLAN regardless the devices acknowledge QoS or not in which greatly enhance the bandwidth management in a network.

### QinQ, QoS and GVRP supported

It supports the QinQ, QoS, GVRP for large VLAN segmentation.

## IGMPv3,GMRP, router port, MLD Snooping, static multicast forwarding and multicast Ring protection

The unique multicast protection under enhanced G.8032 ring can offer immediate self-recovery instead of waiting for IGMP table timeout. It also supports IGMPv3, GMRP, router port, MLD snooping and static multicast forwarding binding by ports for video surveillance application.

### 802.1X security by MAC address

MAC-based port authentication is an alternative approach to 802.1x for authenticating hosts connected to a port. By authenticating based on the host's source MAC address, the host is not required to run a user for the 802.1x protocol. The RADIUS server that performs the authentication will inform the switch if this MAC can be registered in the MAC address table of switch.

#### Auto-provisioning for firmware/configuration update

The switch supports auto-provisioning for switch to auto-check the latest software image and configuration through TFTP server.

#### User friendly GUI, Auto topology drawing

The user friendly UI, innovative auto topology drawing and topology demo makes IES-3424DSFP-2P much easier to get hands-on. The IES-3424DSFP-2P supports DMI interface that can correspond with DDM SFPs (Digital diagnostic monitor) to display the five parameters in Lantech's UI, including optical output power, input power, temperature, laser bias current and transceiver supply voltage\*\*\*. The TX power/RX power raw data is automatically converted to dB values for installer, making it easier to calculate the fiber distance. The complete CLI enables professional engineer to configure setting by command line.

## Editable configuration file; USB port for configuration upload & download

The configuration file of Lantech IES-3424DSEP-2P can be exported and edited with word processor for the other switches configuration with ease. The factory reset button can restore the setting back to factory default and built-in watchdog design can automatically reboot the switch when CPU is found dead.

The built-in USB port can have configuration upload & download by USB dongle.

#### Event log & message; 2 DI / 2 DO

In case of event, the IES-3424DSFP-2P is able to send an email to pre-defined addresses as well as SNMP Traps our immediately. It provides 2 DI and 2 DO. When disconnection of the specific port was detected; DO will activate the signal LED to alarm. DI can integrate the sensors for events and DO will trigger the alarm while sending alert information to IP network with email and traps.

# Various dual power conversions redundancy; Relay

Lantech IES-3424DSFP-2P supports dual power redundancies with isolated 100~240VAC/120~370VDC power conversion and isolated 36~75VDC power conversion or with non-isolated 12~60VDC power module to increase the network reliability. Featured with relay contact alarm function, the IES-3424DSFP-2P is able to connect with alarm system in case of power failure. The IES-3424DSFP-2P also provides ±4000V EFT,  $\pm 4000 \text{V}$  Surge and  $\pm 8000 \text{V}$  ESD protection, which can reduce unstable situation caused by power line and Ethernet.

#### Industrial hardened design for extended temperature operation

Lantech IES-3424DSFP-2P features high reliability and robustness withstanding extensive EMI/RFI phenomenon, lighting surge, inductive load switching, high ESD, high fault current, environmental vibration and shocks usually found in factory, substation, steel automation, aviation, mining and process control. It is the best solution for Automation, transportation, surveillance, Wireless backhaul, Semiconductor factory and assembly lines.

Lantech IES-3424DSFP-2P can run under widely operational temperature (-40°C~75°C) in the harsh environment.

# **FEATURES & BENEFITS**

## System Interface/Performance

- 24x10/100TX + 4 100M/1000M SFP L2+
- 16K MAC Address Table
- Dual isolated power conversions for 1600V DC(36V~75V)
- Dual isolated power conversions for ±3000 V (100~240VAC/120~370VDC)
- Dual power supply terminal block for nonisolated power DC(12V~60V)
- -40to 75C operation temperature(-E model)

## DDM to support SFP diagnostic function\*\*\*

Automatically convert the raw data into dB values for TX power/RX power, making it easier to measure the fiber distance

## **VLAN**

4K 802.1Q Vlan. Port Based VLAN.GVRP.GMRP QinQ.MVRP\*

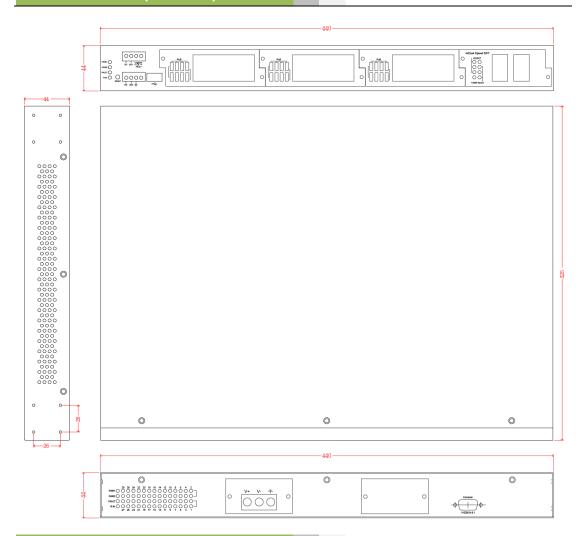

- Port Trunk with LACP 127 trunks with automatic link failover
- QoS (Quality of Service)
- Port Trunk with LACP 127 trunks with automatic link failover
- Security
  - SSL/SSH v2/INGRESS/EGRESS ACL L2/L3
  - MAC address table: MAC address entries/Filter/MAC-Port binding
  - IP Security: IP address security management to prevent unauthorized intruder.
  - Management access control with priority
  - Login Security: IEEE802.1X/RADIUS
  - HTTPS for secure access to the web interface
  - TACACS+\*\*
- Miss-wiring avoidance
  - I FD indicator
  - Email or traps notification
- Node failure protection
  - Ensure the switches in a ring to survive after power breakout is back
  - The status can be shown in NMS when each switch is back
- IGMP v1,v2,v3 for video surveillance application
- IGMP Query mode and support dynamic IGMP router port for reversed multicast video flow and assign another query in a ring
- Enhanced G.8032 Ring protection in 20ms for single ring
  - Support various ring/chain topologies, including dynamic coupling ring

- Enhanced G.8032 ring configuration with ease
- Auto ring configuration(auto mode) for single
- Ring covers multicast on different ports
- Auto topology drawing in web UI with detail node info
- Auto configurator for auto ITU ring setup
- 256 groups MSTP over VLAN
- Supports IEEE802.1ab LLDP, Cisco CDP
- DHCP server / client / DHCP Option 82 relay / DHCP Option 82 server; Port based DHCP server; DHCP Option 66; DHCP Snooping; basic IPv6 DHCP server
- Mac based DHCP server to assign IP address that includes dumb switches in DHCP network
- MLD Snooping for IPv6 Multicast stream
- **Bandwidth Control** 
  - Ingress Packet Filter and Egress Rate Limit
  - Broadcast/Multicast Packet Filter Control
- System Event Log, Email alert and SNMP Trap for alarm support; 32 RMON
- TFTP/HTTP Firmware upgrade; Redundant firmware to avoid crashing in case of upgrade failure
- Reset / Factory default button to restore factory setting
- Watch dog design to reboot switch under certain circumstances
- Diagnostic including Ping / ARP table / DDM information
- Provides EFT protection ±4000 VDC for power line
- Supports ±8000 VDC Ethernet ESD protection
- 2 DI/DO and 1 relay contact alarm
- Support USB dongle for auto backup/edited restoration configuration
- Auto Provision to verify switch firmware with the latest or certain version

Miss-wiring avoidance 2. node failure protection 3. Loop protection  Support System log record and remote system log server  Up to 10 trap stations; trap types including:  1. Device cold start 2. Authorization failure 3. Port link up/link down 4. DI/DO open/close 5. Typology change(ITU ring) 6. Power failure 7. Environmental abnormal  Provide DHCP Client/ DHCP Server/DHCP Option 82/Port based DHCP; DHCP Option 66; DHCP Snooping; basic IPv6 DHCP server

DNS	Provide DNS client feature and support Primary and Secondary DNS server.	Firmware Update	Supports TFTP firmware update, TFTP backup and restore; HTTP firmware upgrade
Diagnostic	Support Ping, ARP table and DDM information	USB Configuration	Supports text editable configuration file for system quick installation to backup and restore
SNTP	Support SNTP to synchronize system clock in Internet	backup and restore	USB dongle for automatic back up and editable restore
Environmental	Internal sensor to detect temperature, voltage and		
Monitoring	current and send SNMP traps and emails if any abnormal events	Auto Provision	To verify switch firmware with the latest or certain version
			*Future Release
Factory reset button & watch	Factory reset button to restore back to factory default settings. Watch dog design can reboot switch		**Optional
dog design	automatically under certain circumstances	***Optional DDM SFP required	

# **ORDERING INFORMATION**

For optional power supply, add +DC, +DCI, +AC, or +HV to the part number.

■ IES-3424DSFP-2P......P/N: 8380-506

24 10/100TX + 4 Dual SFP L2 plus Industrial Switch

Built-in 1x isolated DC 12~56VDC power supply + 1x optional power socket; -20°C to 60°C

■ IES-3424DSFP-2P-E......P/N: 8380-507

24 10/100TX + 4 Dual SFP L2 plus Industrial Switch

Built-in 1x isolated DC 12~56VDC power supply + 1x optional power socket; -40°C to 75°C

■ IES-3424DSFP-2P-AC......P/N: 8380-508

24 10/100TX + 4 Dual SFP L2 plus Industrial Switch

Built-in 1x isolated AC100~240VAC IEC320 power conversion + 1x optional power socket; -20°C to 60°C

■ IES-3424DSFP-2P-AC-E......P/N: 8380-509

24 10/100TX + 4 Dual SFP L2 plus Industrial Switch

Built-in 1x isolated AC100~240VAC IEC320 power conversion + 1x optional power socket; -40°C to 75°C

■ IES-3424DSFP-2P-HV......P/N: 8380-510

24 10/100TX + 4 Dual SFP L2 plus Industrial Switch

Built-in 1x isolated AC/DC 100~240VAC/100V~370VDC power conversion + 1x optional power socket; -20°C to 60°C

■ IES-3424DSFP-2P-HV-E......P/N: 8380-511

24 10/100TX + 4 Dual SFP L2 plus Industrial Switch

 $Built-in\ 1x\ isolated\ AC/DC\ 100\sim240VAC/100V\sim370VDC\ power\ conversion\ +\ 1x\ optional\ power\ socket;\ -40°C\ to\ 75°C\ to\ 75°C\$ 

# **OPTIONAL ACCESSORIES**

## Power

### EOTH00070

Isolation Power 100-240VAC, 120-370VDC 2.0A max, 47-63HZ

### EOTH000703

Isolation Power 100-240VAC IEC320 socket, 2.0A max, 47-63HZ

### EOTH000704

Power Input Module 12-56VDC, 2.5A

## Mini GBIC (SFP)

8330-162-V1	MINI GBIC 1000SX (LC/MM/0.5KM) Transceiver	8330-187-V1	1.25Gbps BiDi SFP 20KM Transceiver (WDM 1550)
8330-163-V1	MINI GBIC 1000SX2 (LC/MM/2KM) Transceiver	8330-180-V1	1.25Gbps BiDi SFP 40KM Transceiver (WDM 1310)
8330-165-V1	MINI GBIC 1000LX (LC/SM/10KM) Transceiver	8330-182-V1	1.25Gbps BiDi SFP 40KM Transceiver (WDM 1550)
8340-0591-V1	MINI GBIC 1000LHX (LC/SM/40KM) Transceiver	8330-181-V1	1.25Gbps BiDi SFP 60KM Transceiver (WDM 1310)
8330-166-V1	MINI GBIC 1000XD (LC/SM/50KM) Transceiver	8330-183-V1	1.25Gbps BiDi SFP 60KM Transceiver (WDM 1550)
8330-169-V1	MINI GBIC 1000XD (LC/SM/60KM) Transceiver	8330-184-V1	1.25Gbps BiDi SFP 80KM Transceiver (WDM 1490)
8330-167-V1	MINI GBIC 1000ZX (LC/SM/80KM) Transceiver	8330-185-V1	1.25Gbps BiDi SFP 80KM Transceiver (WDM 1550)
8330-170-V1	MINI GBIC 1000EZX (LC/SM/120KM) Transceiver	8330-071-V1	125Mbps BiDi SFP 2KM (WDM 1310) Transceiver
8330-168-V1	MINI GBIC 10/100/1000T (100m) Transceiver	8330-072-V1	125Mbps BiDi SFP 2KM (WDM 1550) Transceiver
8330-060-V1	MINI GBIC 100Base (LC/MM/2KM) Transceiver	8330-069-V1	125Mbps BiDi SFP 20KM (WDM 1310) Transceiver
8330-065-V1	MINI GBIC 100Base (LC/MM/5KM) Transceiver	8330-068-V1	125Mbps BiDi SFP 20KM (WDM 1550) Transceiver
8330-061-V1	MINI GBIC 100Base (LC/SM/30KM) Transceiver	8330-080-V1	125Mbps BiDi SFP 40KM (WDM 1310) Transceiver
8330-197-V1	1.25Gbps BiDi SFP 0.5KM Transceiver (WDM 1310)	8330-082-V1	125Mbps BiDi SFP 40KM (WDM 1550) Transceiver
8330-198-V1	1.25Gbps BiDi SFP 0.5KM Transceiver (WDM 1550)	8330-081-V1	125Mbps BiDi SFP 60KM (WDM 1310) Transceiver
8330-195-V1	1.25Gbps BiDi SFP 2KM Transceiver (WDM 1310)	8330-083-V1	125Mbps BiDi SFP 60KM (WDM 1550) Transceiver
8330-196-V1	1.25Gbps BiDi SFP 2KM Transceiver (WDM 1550)	8330-084-V1	125Mbps BiDi SFP 80KM (WDM 1310) Transceiver
8330-188-V1	1.25Gbps BiDi SFP 10KM Transceiver (WDM 1310)	8330-085-V1	125Mbps BiDi SFP 80KM (WDM 1550) Transceiver
8330-189-V1	1.25Gbps BiDi SFP 10KM Transceiver (WDM 1550)	8330-191-V1	Dual Speed SFP 100M/1000M-LX 10KM Transceiver
8330-186-V1	1 25Gbps BiDi SEP 20KM Transceiver (WDM 1310)	All SFP# ended	I with D are with DDM function
