

IES-0008T

8-Port 10/100TX Slim Type Industrial Switch

- Wide-range redundant power with polarity reverse protection
- Wide operating temperature: -40°C to 75°C (-E model)

OVERVIEW

The Lantech IES-0008T is a slim type 8-Port 10/100BaseTX Industrial Switch. To increase reliability, it provides redundant power design with polarity reverse protection. It can auto detect power inputs and supports wide input range from 9.5V to 56VDC.

The IES-0008T is designed to meet the demands of industrial environments, comes packaged in a robust IP-30 housing and has been tested extensively to meet Industrial EMI and EMC

standards. Rigorous mechanical testing has also been undertaken with free fall, shock, and vibration stability test, which ensure long term reliability in critical industrial environments.

IES-0008T is compact in size and easy to be installed with DIN rail and wall mount kits. IES-0008T is applicable in many kinds of industrial environments.
